## INSTRUCTIONS FOR AUTHORS

Our online submission system guides you stepwise through the process of entering your article details and uploading your files. Please register at following link [JAES e-service](#).

Journal of Applied Engineering Science considers Original scientific Paper, Review paper, Short report, Preliminary report and Professional paper as articles for publication. Please choose one of the given options during initial submission.

We differentiate between the requirements for **new/revised** and **final** submissions. You may submit your manuscript as a single Word file to be used in the refereeing process. Only when your paper is at the final revision stage, will you be requested to put your paper in to a **Final submission manuscript format** for acceptance of your article.

### NEW SUBMISSION

Submission to this journal proceeds totally online and you will be guided stepwise through the creation and uploading of your files. Please submit your manuscript as a single Word document, in any format or layout that can be used by referees to evaluate your manuscript.

There are no strict formatting requirements in this phase, but all manuscripts must contain the essential elements recognized in scientific paper, such as Title, Abstract, Keywords, Introduction, Materials and Methods, Results and Discussion, Conclusions. Please ensure the figures and the tables included in the single file are placed next to the relevant text in the manuscript, rather than at the bottom or the top of the file. The corresponding caption should be placed directly below the figure and above the table. Divide your article into clearly defined and numbered sections.

References should follow style defined style or format as long as the style is consistent. Where applicable, author(s) name(s), journal title/ book title, chapter title/article title, year of publication, volume number/book chapter and the article number or pagination must be present. Use of DOI is highly encouraged. The reference style used by the journal will be applied to the accepted article by Elsevier at the proof stage. Note that missing data will be highlighted at proof stage for the author to correct.

For citations of references, we prefer the use of square brackets and consecutive (Arabic numerals) numbers and ordered according to where they are first mentioned in the paper, not alphabetically. The following bibliography provides a sample reference list with entries for journal articles [1], a book [2], a chapter in the book [3], proceedings [4], as well as a URL [5]. Please add DOI code when available. Examples follow:

- [1] Surname 1, Initials., Surname 2, Initials. (year). Title of journal article. *Journal name*, volume, number, pages, DOI code.
- [2] Surname 1, Initials, Surname 2, Initials (year). *Title of the book*. Publisher, place of publication.
